

Jigsaw Worksheet

Worksheet represents groups of 4- modify the worksheet to include additional students within a group as needed. On page one, provide this worksheet to students in the expert group. Students will work together to research or answer the expert topic. On page two, provide this worksheet to each student in their home groups. Students will take notes on each expert's presentation. Any questions or confusions they still have can be recorded and discussed as a whole group with the teacher.
